EXAMINER'S AMENDMENT

1) An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Please change the word "axel" to —axle—in:

Claim 1 lines 2, 3, and 6;

Claim 4 line 3;

Claim 6 line 3;

Claim 9 lines 5, 8 and 8;

Claim 12 lines 2 and 3;

Please note that the spelling error occurs throughout the specification. Applicant may send in a 312 amendment if applicant wishes to change the spelling in the body of the specification.

2) The following is an examiner's statement of reasons for allowance: None of the references cited either alone or in combination provide a brake hub and a tire hub constructed and arranged to rotate in opposite directions about the wheel axle; whereby rotation of the brake hub in a direction opposite of the tire hub creates a counter-rotational gyroscopic force that cancels the gyroscopic force created by the tire hub rotating in the opposite direction. Partin teaches a gyroscopic member that rotates in the

same direction as the wheel. Kulhavy teaches a gyroscope used to balance a vehicle. None of the references cited either alone or in combination provide the novel features cited above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
